

Backaert

Schilde, Belgium

This single family house has been built completely within five months. For all external/internal walls, the ceiling, the roof and the interior stairs CLT by Stora Enso has been used. Insulated is the building with cellulose fibers whereby the wall reaches a U-value of 0.17 W / m² K and the roof a U-value of 0.15 W / m² K. The completion was in the first half of 2014.
