

# Cafe de la Branche

## Nantes, France

The Café de la Branche in Nantes, France, was built with CLT massive wood by Stora Enso in 2017. Altogether, the project comprises 224 m<sup>2</sup>. The modern construction material has an extremely welcome side effect: the healthy climate within wooden structures creates a particularly pleasant indoor environment and has a demonstrably positive well-being-effect. A total of 32 m<sup>3</sup> CLT by Stora Enso was used for this construction project.
