

# Pulse

## Saint Denis, France

The office building Pulse in Saint Denis, was built with CLT by Stora Enso and delivered in 2019. Altogether, the project comprises 28 896 m<sup>2</sup>. The modern construction material has an extremely welcome side effect: the healthy climate within wooden structures creates a particularly pleasant indoor environment and has a demonstrably positive effect on employee's well-being. A total of 2 880 m<sup>3</sup> CLT by Stora Enso was used for this construction project. In 2020 the Olympic Commission move in the building to organize the future 2024 Paris Olympic Games.

### Office Building Concept by Stora Enso

The office buildings of the future are made of wood.
