

Primary School Karl-Toldt-Weg Vienna, Austria

A total of 44 new primary school classrooms are to be built in Vienna by the end of 2015. The CLT modules for the school annex on Karl-Toldt-Weg in Vienna Penzing, were delivered to Vienna already. There the modules were assembled within a very short construction time. Dust and noise exposure are reduced and this saves costs. At the end of the summer holidays 2014, the new school building will be ready for use.

School Concept by Stora Enso

Let's build a learning environment for the next generation.
