Regents Park Open Air Theatre

London, United Kingdom

Regent's Park Open Air Theatre, which is made of CLT, was built in London in 2011. Regent's Park is a firm fixture in London's summer arts calendar, attracting over 130,000 visitors from May to September. The theatre is one of London's largest outdoor auditoria with 1,240 seats. The CLT structure took just three weeks to erect.
