

Nonnewiesen

Esch Zsur-Alzette, Luxembourg

The project consists of two types of residential buildings: one multifamily house and a series of eleven townhouses. All components are made of CLT by Stora Enso (Cross Laminated Timber), the exterior walls including insulation were prefabricated in the Prefalux factory. The interior walls (partly in visible quality) as well as ceilings / roofs were delivered directly to the construction site. Completion in 2015.

Residential Multi-storey Building Concept by Stora Enso

Multi-storey buildings in massive wood are high-performing, renewable structures that can help to meet the growing demand for new urban buildings and more efficient, sustainable construction.
