Woodeum Headquarter

Boulogne Billancourt, France

The Woodeum's headquarter in Boulogne Billancourt, France, is a project of renovation of an existing building with the use of CLT massive wood. It was delivered in 2017. Building has now 3 storey including Woodeum's offices and coworking places. CLT by Stora Enso ensures a fast and easy construction and contributes to a better indoor climate. A highlight of the decoration in this building are the visible construction materials: wood, metal and concrete. This project has been certified with RT 2012.

Office Building Concept by Stora Enso

The office buildings of the future are made of wood.
