

Extension of Palacio Tondon

Briñas, Spain

The extensions on new luxury suites of the hotel Palacio Tondon in Briñas, Spain was built with CLT massive wood by Stora Enso in 2018. Altogether, the project comprises 1 120 m². The modern construction material has an extremely welcome side effect: the healthy climate within wooden structures creates a particularly pleasant indoor environment and has a demonstrably positive effect on the well-being. A total of 220 m³ CLT by Stora Enso in non visible quality (NVI) was used for this extension construction project.
