

# G3 Shopping Resort

## Gerasdorf, Austria

The G3 shopping resort was opened in 2012 in Gerasdorf bei Wien, Austria. At the time of its construction, it was Europe's largest wooden building site with 6,000 m<sup>3</sup> of cross-laminated timber. The contoured roof construction made of CLT is a structural engineering masterpiece. Sustainability was already an important element during the building phase, and the entire Gerasdorf G3 Shopping resort now promotes the concept.
