

# Passage Marie

## Saint Ouen sur Seine, France

The Logements collectifs - Passage Marie in Saint Ouen sur Seine in France, was built with CLT massive wood by Stora Enso in 2020. Altogether, the project comprises 14 842 m<sup>2</sup>. The modern construction material has an extremely welcome side effect: the healthy climate within wooden structures creates a particularly pleasant indoor environment and has a demonstrably positive effect on residents' wellbeing.

### Residential Multi-storey Building Concept by Stora Enso

Multi-storey buildings in massive wood are high-performing, renewable structures that can help to meet the growing demand for new urban buildings and more efficient, sustainable construction.
