

# Agricultural centre Maishofen

## Maishofen, Austria

In this CLT project, a vertically-structured wooden façade made of rectangular wooden posts encases the solid building structure, giving the impression of depth. The agricultural centre is accessed via a foyer which spans two storeys, whereby the Federal Machinery Syndicate can be found on the ground floor, and the Chamber of Agriculture on the first floor. 169 m<sup>3</sup> of CLT by Stora Enso were used for this building.

### Office Building Concept by Stora Enso

The office buildings of the future are made of wood.
