

# Eskolantie

## Helsinki, Finland

Stora Enso supplies the wooden modules to four multi-storey buildings with 5 to 7 floors. Eskolantie's block of rental apartments is the long-awaited start of an affordable urban wood construction in Helsinki – economic, safe and ecological projects taking also the local environment into consideration. Construction start was during autumn 2014 and has been completed in November 2015.

### Residential Multi-storey Building Concept by Stora Enso

Multi-storey buildings in massive wood are high-performing, renewable structures that can help to meet the growing demand for new urban buildings and more efficient, sustainable construction.
